COASTER SELECTION - WILD EAGLE

<https://www.dollywood.com/themepark/rides/Wild-Eagle>

LOCATION

Sea World
San Antonio, Texas

Enchanted Waters will be placed in between
Texas Stingray and Great White.

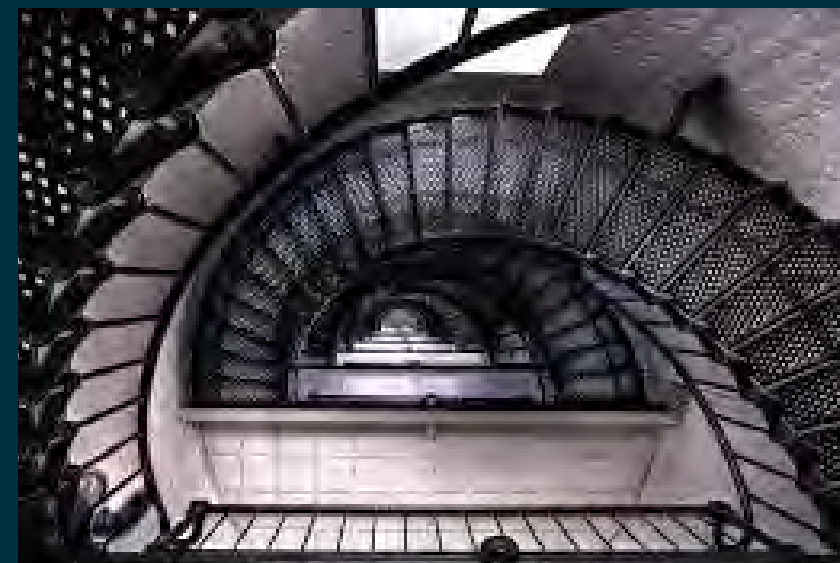

The background is a deep blue-green underwater scene. Sunlight rays (penetration of light) filter down from the top, creating a shimmering effect. Several small, glowing fish are visible, including a larger one on the left and a smaller one near the top center. The overall atmosphere is mysterious and magical.

NARRATIVE

Guests will fly over the chaotic waves of the sea as they fly aside an albatross. On their voyage, stormy winds will send the guests swirling and twirling about in the air as they explore far and wide from the shore line. While on their journey, guests might even come face-to-face with a hippocampus or a mermaid as they explore the mysterious, enchanted waters.
